

March Into Learning at inspireU!

Interactive Exhibits For All Ages

With over 35,000 square feet to explore, inspireU has interactive exhibits for children and adults alike! Check them out [□](#)

0 to 2 Years Old

Located in the Mezzanine, our shoe-free infant and toddler area is the perfect place for babies and toddlers to explore. With three separate spaces bordered by benches for sitting, our youngest visitors can enjoy a giant light board, toddler-sized climbing "house", and a tiny library.

3 to 5 Years Old

"Messy play is creative play," and that's why our preschool-aged guests love the Messy Room! With rotating art activities, three large windows to paint on, and tons of materials to experiment with, children can enjoy creating without any added pressure.

6 to 8 Years Old

With rapid cognitive and social development during these elementary years, children love exploring the inspireU town! They'll get to test their reflexes and put on a puppet show in the Main Town or shop for food and report the news in the South Town.

9+ Years Old

Located right off the historic stairway is a manufacturing and engineering space where children can test their skills with a ball wall, a builder's area, and other simple machines that foster creativity and help build problem-solving skills.

Youie's Development Tip

Spring Break is the perfect time for kids to recharge, but that doesn't mean learning has to stop! Giving children a break from their usual school routine helps prevent burnout and encourages creativity. Engage their minds with hands-on, interactive experiences like nature walks, museum visits, and some interactive play at inspireU Children's Discovery Center. When learning feels like fun, kids stay curious!

**Plan Your
Visit**

Stay Connected

Stay connected with inspireU by following us on social media, inviting your friends and family to sign up for our newsletter, visiting the discovery center often, and leaving us a review on Google! Thank you for being part of the inspireU family!

We'll see you next time!
